

The Vanguard

The Vanguard at the University of South Alabama was a very fast paced work environment where I got the chance to work at many different event hosted by the city of Mobile, college football games throughtout the nation, university events and any event that simply seemed to catch the attention of our audience. I mostly worked within a team setting as I wrote articles and updated the website. Photography played a huge roll aswell. I also got the chance to be an interviewer, therefore, I would interect with the general public often. Here are a few examples of my work.

The Office of Multicultural Student Affairs

Working at the office of Multicultural Student affairs was filled with team projects, events, social media and photography. I mostly worked on the social media side of things. I was under great fortune to be consistently tasked with creating flyers for weekly or monthly events, therefore, aiding me in learning professional social media handling on platforms such as Facebook, Instagram and Twitter. Post-event I would take photos for future social media needs. Here are a few examples of flyers, post and photos that I have created for OMSA.

Church Life

I have had the privilege of using my skills to serve several local churches in my area voluntarily as part of my praise and worship community. I have created flyers, logos, and apparel for various events. Here are a few examples.

Zebra Marketing

Zebra Marketing has many partners that I have gotten the chance to do some graphic work for. I mostly created flyers, T shirt designs, Mock ups, Logos and packaging designs. Here are a few examples.

The Lifr

The Lifr is a business concept created by a local business group. I was asked to create a website suitable to deliver the best quote to those seeking life insurance. With limited information I built a suitable landing page and contact page. I built the website from scratch using word press. The current state of the website is not yet published and remains a concept.
